

## **Interview guide**

Can you please describe your students: demographic and other characteristics...

Have you encountered in the course of your work as a lecturer/instructor/teaching career issues related to cultural differences, differences in cultural background? Can you describe the nature of these issues?

*If has not encountered, proceed as follows:*

You described your students as highly diverse, but you have not encountered any issues re: cultural differences in your teaching career/experience? How do you explain it?

How do cultural differences and diversity affect learning, the relations among students and between students and the lecturer/instructor?

How do you deal with issues related to diversity/cultural differences?

What ways/methods would you suggest to use in order to improve cultural sensitivity and competence in teaching and learning?
