

# 2<sup>nd</sup> Workshop on Complex and Harmonic Analysis

April 13-15, 2016, Holon

## Announcement

The Workshop will provide a forum for discussions and exchange of new ideas, concepts and recent developments in Modern Analysis. Topics to be addressed during the workshop include

- Complex Analysis,
- Harmonic Analysis and PDE,
- Quasiconformal mappings and Geometry.

The Second Workshop on Complex and Harmonic Analysis is organized by Bar-Ilan University, Holon Institute of Technology and ORT Braude College of Engineering.

## Speakers

Fahreddin Abdullayev

Daniel Alpay

Hershel Farkas

Adi Glucksam

Vladimir Goldshtein

Boris Hanin

Pekka Koskela

Mark Lawrence

Nir Lev

Alexander Logunov

Ron Peled

Vladimir Ryazanov

Eero Saksman

Nikola Tuneski

## Sponsors

The Workshop is sponsored by Holon Institute of Technology, the Gelbart Research Institute for Mathematical Sciences of Bar-Ilan University, the Galilee Research Center for Applied Mathematics of ORT Braude College of Engineering, and International Society for Analysis, its Applications and Computation (ISAAC).

## Organizers

M. Agranovsky, D. Aharonov, A. Golberg, L. Karp, D. Shoikhet, M. Sodin, E. Yakubov, L. Zalcman
