Leadership in Academia

Refael is V.P for Innovation, Entrepreneurship and Internationalization at Holon Institute of Technology (HIT). He is also the founder of the first academic program in Digital Health (Digital Medical Technologies), serving as a technological “pre-med”. Refael is an M.D. Ph.D. (Brain Science) with a Master's degree in Computer Science. He is experienced and high-skilled integrator of research, innovation, entrepreneurship and internationalization with a vast knowledge in Digital Health and comprehensive overview of R&D initiatives (as a researcher, entrepreneur and integrator), heading a team of excellent researchers, technologists, economists, entrepreneurs & visionaries, lecturers, mentors and administrators. Refael is a member of 8400 The Health Network – HealthTech leaders accelerating Israel's global impact in Digital Health - and also of Leaders in Academia program ("Movilim Ba-Academia", cohort #4).
